Day 2 welcomed us with gloomy skies and cooler weather yet again. Our days schedule consisted of 3 free practices in the morning, which leads to qualifying later on in the afternoon.

Yesterday we saw the majority of the South African drivers featuring in the top 10, however this morning things developed with a twist, with grip coming into play, set-up being fine tuned and the do or die changes before qualifying, the consistently quick South Africans making smoke, have been Nathan Parkins Rok Cup, Bradley Liebenberg Junior Rok, Clinton Bezuidenhout Mini Rok and Ryan Frost in Super Rok.

Spanners are flying, nerves are rising, but spirits are high and qualifying is looking promising.

This Afternoon the clouds kept their cover and the rain away as our drivers secured their gloves and buckled their helmets heading out to war to clinch a position upfront.

After a nail biting qualifying round the results ended as structured below.
